VeoDoc is a series of patient portals specific to illnesses and health concerns such as Parkinson's, Cancer, Diabetes, Cardiovascular, Alzheimer's, etc. giving patients the ability to keep their health records online and available 24/7 anytime and anywhere. In addition, VeoDoc allows patients to share their health information and patient records with their providers and with friends and family. The system is HIPAA compliant, and allows patients to upload and append their own patient profiles and records.

Features include:

- Patient Profile Management
- Patient and Health Records
- Scheduling/Appointments
- Alerts and Messages
- Medicine, Drug Facts and FAQs
- Health and Wellness Articles and Information
- Communication
- Test Results
